Making the Gospel available to everyone in the Middle East and North Africa

Thank you for making it possible to encourage believers living in isolation and danger

Most people in the United States and other Western countries quickly adapt to ever-changing technology. But what about the millions in the Middle East and North Africa?

Can technology be used to encourage and disciple Christians who cannot worship Jesus Christ openly? The answer is yes!

SAT-7 not only uses satellite television broadcasts to make God's love visible in the region but also uses video-on-demand and social media platforms to create a growing

community of believers who are often isolated.

Your generosity made this story possible

Toofan is an isolated, new believer in Afghanistan. SAT-7's use of social media and digital technology is helping him learn more about his faith, connect with other believers, and have his questions answered. He recently shared his story:

"I am a Christian, and it was about a year ago that I grew in

Continued inside

faith through watching the programs of SAT-7 PARS," says Toofan. "It was through Facebook that I first came across SAT-7. I then joined via WhatsApp and Telegram and came to understand Christianity.

"I GREW IN FAITH THROUGH WATCHING THE PROGRAMS OF SAT-7 PARS."

"We can't connect with other believers here, but I am learning by watching your programs and receiving answers to my questions.

"I have five children. My wife is not a believer; please pray for her and for her life to be transformed.

I am full of joy! "I came to believe in Jesus when I met Him in a dream. I want to say that you,

dear ones (at SAT-7), are our glory as you put your all into serving us (despite) our inability to go to church.

"Every day I am learning new things from the programs on the network, and I am grateful that you spend so much time with us. I am grateful for all of you, dear ones."

Thank you for encouraging isolated believers

SAT-7 uses technology to make God's love visible, and He is using your support to make it possible. We are looking ahead, and we recognize that any platform used to disciple isolated believers is an important one.

But SAT-7 also knows that though technology changes, the Gospel never will.

A message of gratitude from Lebanon

SAT-7 not only makes the Gospel available—but also provides educational opportunities to children and adults.

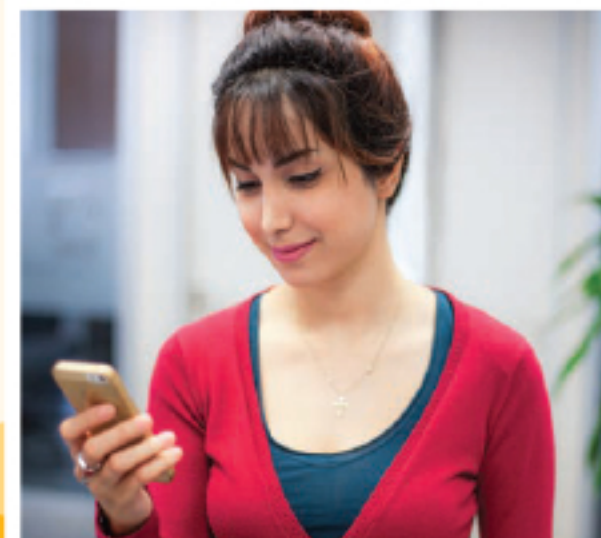

As Christians, we want to lift people out of poverty and free them from the burden of illiteracy. One SAT-7 ACADEMY viewer from Lebanon named Nouhad shared her excitement.

"I WANT TO LEARN FOR MYSELF WHAT YOU TEACH."

"I saw your Facebook page, and I saw the content you are providing," says Nouhad. "I got really

interested in your programs, and I want to learn for myself what you teach. I am adult, and I like that you teach languages and math for free and that it is also suitable for all ages!"

"Thank you so much!"

Please consider supporting every month to provide hope for a better life to adults and children.

**“I am changed now.
The Lord helped me
despite my mistakes.”**

SAT-7 is excited to use technology, like social media, to make God’s love visible and encourage believers to grow in their understanding of His word.

One SAT-7 TÜRK viewer named Sait shares how God used technology to turn him around.

“I saw your program through Facebook,” he says. “It was so good that every word had an even deeper meaning. I have been away from it all. I have made many mistakes too. But I am changed now. The Lord helped me despite my mistakes.”

Please pray for Sait and others like him and consider giving today to support the Bible-based content that is a reminder of God’s grace to so many.

Your support makes a significant difference!

Your fellow donor writes words of encouragement

SAT-7 programming is created in the Middle East and North Africa (MENA) for viewers in the region. Culture and history are important, and both need to be understood to make the Gospel available and effective.

We often hear from ministry partners who have a passion for the MENA, and they want to increase their impact now and in the future.

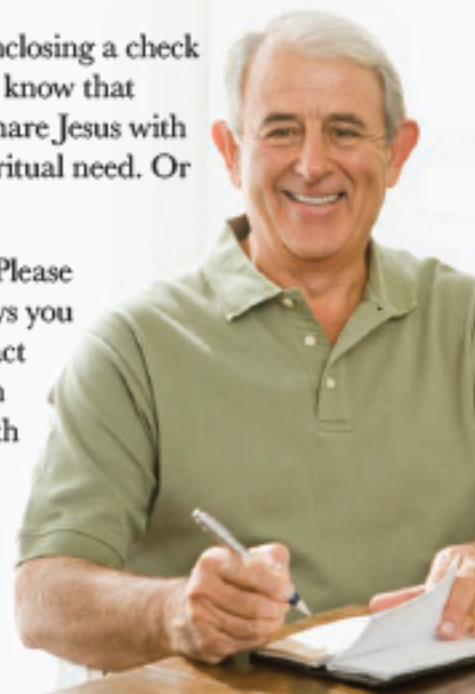

One supporter recently shared his thoughts on the work of SAT-7. He writes, “I greatly appreciate your ministry and the part it plays in bringing about the Kingdom of God ‘on Earth as in Heaven.’

“Thank you so much. You have a special place in my heart and have for many years. I have just closed

out my IRA and am enclosing a check to you for your share. I know that you will use it well to share Jesus with those in physical or spiritual need. Or both.”

Your support matters. Please consider the varied ways you can increase your impact by supporting SAT-7 in your will or trust or with stock, real estate, or other non-cash assets.

It’s another opportunity to tell more people about God’s love.

DR. REX M. ROGERS

YOU’RE MAKING THIS INNOVATIVE OUTREACH POSSIBLE!

For those of us on the “older” end of life—like me—social media seems to be a rather amazing, useful, at times perplexing, and sometimes scary development.

Think about it; literally, we can communicate around the world immediately.

When properly harnessed, social media offers a wonderful communicative power.

Launched as a satellite television ministry, SAT-7 is now positioning itself as a media ministry communicating the Gospel via online digital distribution platforms.

SAT-7 is harnessing social media power to speak God’s truth into Middle Eastern cultures. By producing video content, especially for social media users, the ministry is reaching more youth and more individuals in closed countries.

Social media is now another SAT-7 method for carrying the Message.

HOW YOU CAN PRAY

Praise report from an Iranian believer

“My father lost his job two months ago and became unemployed. I asked you to pray for him. I was also praying and fasting for my father’s work situation. God has answered our prayers, and my father has found a job that is right for him.

“Thank you for standing with me and praying for my father and me.”

—Pedram

a male viewer from Iran

Please continue to pray for believers in the Middle East and North Africa. May God remind them that He cares deeply about their needs.

When He answers, we celebrate with them. They are not alone.

“My sister watches you every day on Facebook.”

Your partnership makes it possible to reach viewers with hope through social media

SAT-7 programs have a loyal following across the Middle East and North Africa. Not only can viewers watch satellite broadcasts, but they can also connect with others and be supported using social media.

One viewer named Caren shared, “My sister loves My School and watches it every day on Facebook. She hasn’t missed an episode since the first broadcast, and even if the broadcast was cut, she’d follow you on her phone.”

Please consider giving today to support programs that provide educational opportunities for many across the region.
