

## July 2023

Thank you for joining the July Beyond Borders Prayer connecting you with on-the-ground SAT-7 staff from the Middle East and North Africa. This month we learned firsthand from Maged Mounir, the Executive Director of the SAT-7 Egypt Office.

The Egypt studio plays an important role as one of just two Arabic production studios for the two SAT-7 Arabic satellite television channels. In addition, there are production and audience relations for the digital and social media initiatives broadcasting God's love to Arabic speakers across their country, MENA, and the global Arabic diaspora. There is something for everyone on the SAT-7 Arabic channels, with programs for children, youth, and women shown regularly alongside live broadcasts and teaching programs that support local Christians.

### Suggested Ways to Pray

1. Pray for Maged Mounir in his executive leadership role as SAT-7 Egypt Director.
2. Pray for wisdom and insight into the important decision Maged makes every day.
3. Pray for the Cairo team and each member in their various responsibilities during these challenging times.
4. Now with such a variety of programs, pray for the program productions teams.
5. Pray for the audience relations teams responding to viewers' questions across all platforms.
6. Though there are challenges in operating a production studio in Egypt, the Cairo studio plays a vital role in creating Bible-based content in a fast-changing Arab world.

### Host Your Own Prayer Time

The SAT-7 USA trusts that what you hear and learn during Beyond Borders Prayer calls will ignite a passion for hosting your own prayer times with your families and friends. Sometime during the next week, please gather a group together to pray for SAT-7. Beyond Border Prayer resources are available at [www.sat7usa.org/beyond-borders-prayer](http://www.sat7usa.org/beyond-borders-prayer).
